**“UNDERSTANDING THE
ONLINE PERSPECTIVE”**

Speaker :
Dr. Vini Sebastian,
Associate Professor,
St. Xavier's Institute of Education

CONTEXT:
Due to the pandemic situation we teachers are thrown into the online mode of teaching. We are all familiar with the offline mode and transact our curriculum in an effective manner. The face to face teaching has been our medium to communicate with students. But now we are all forced into going online. This situation throws some questions in our mind.
Are we fully prepared to do our online teaching? Is the first question that comes to our mind.
Is communicating online same as communicating offline?
What are the skills a teacher requires to deliver effective online lessons?
What are the teaching theories related to online teachings?
How do students learn online?
How can we evaluate students to ascertain students' performance?
These and several other questions are pressing us day by day and we need answers to these questions. Teachers have to train and develop themselves to communicate online which will be the new normal.
