

#### 4.2.2

Institution has remote access to library resources which students and teachers use frequently

#### 4.2.2 Institution has remote access to library resources which students and teachers use frequently

Our College Nirmala Memorial Foundation College of Education has access to library resources which students and teachers use frequently. Our College has Remote Access in simple language with the ability to access a computer / server remotely through a network connection. The users have leverage to work remotely away from the institution/ office while retaining access to a distant computer or network.

- **E-journals**, also known as electronic journals, are digital versions of traditional print journals that are published online. They provide academic or scholarly articles, research papers, and other scholarly content in various disciplines. These e-journals are accessible through multiple portals or platforms, such as university libraries, research databases, and publisher websites for students.

Example: Australasian Journal of Educational Technology

- **E-ShodhSindhu** project is an initiative undertaken by the Ministry of Human Resource Development (MHRD), Government of India, with the aim of providing researchers and students with access to a wide range of scholarly articles, journals, and other research materials.
- It aims to bridge the gap between researchers and knowledge sources by providing access to online journals, databases, and other digital content. It enables users to search for and access scholarly articles and research papers easily, without any geographical restrictions.
- Through E-ShodhSindhu, students and researchers can access a vast pool of resources, including full-text articles, digital books, and research papers for students.
- **Shodhganga**  
It is a web-based repository that serves as a platform for researchers in India to deposit their Ph.D. theses and make them accessible to the public. It was initiated by the University Grants Commission (UGC) of India with the objective of creating a comprehensive database of scholarly work in various disciplines. Example: Shodhganga in our library.
- It not only enables researchers to preserve and showcase their research findings but also promotes open access to scholarly literature. It has become a valuable resource for academic communities, students, and the general public looking for research material.
- E-books, short for electronic books, are digital versions of printed books that can be read on electronic devices such as smartphones, tablets, e-readers, or personal computers. They offer the convenience of accessing a vast library of books in a portable and compact format.
- The college has subscribed to E- journals like CORE, Science Open, Directory of Open Access Journals for Library, Social Sciences Research Network, Public Library of Science, Open DOAR, CIA World Fact Book, Paperity, Eco Biz and Ethos for students.
- **Databases**  
They are structured collections of organized data that can be stored, managed, and accessed electronically.  
It provides a way to store different types of data, such as text, numbers, images, and videos, and connect related information in a structured manner for students.

### Index Criteria for 4.2.2

<b>Sr. No</b>	<b>Remote Access for</b>	
1	E-journals	N-List
2	E- Shodh Sindhu	N-List
3	Shodh Ganga	N-List
4	Database	N-List
5	E-Book	N-List
