## REPORT ON MAINTAINING A HEALTHY ENVIRONMENT IN THE CAMPUS

The institution acknowledges and takes responsibility for the environmental impact of its activities. The college is committed to mitigating the impact of its operations and behavior on the natural environment.

The college complies with all the environmental legislation. It works to increase awareness about environmental responsibility among the students and staff members. It pledges to maintain the college campus environmentally conscious manner for the benefit of all present and future stakeholders keeping their health and safety utmost in mind.

The institution has taken several initiatives to minimize the adverse impact on the environment and to promote a green campus. The Institution is located in the heart of the city, surrounded by residential buildings and commercials. There is less pollution due to the absence of railway stations or manufacturing industries in the vicinity.

As the institution has limited availability of open ground, efforts are being made to bring greenery in and around the campus by planting trees and plants at convenient locations in the open area, especially near all the boundary walls and cabins window areas.

Different types of plants are planted across the campus. The institution has developed a small nursery to nurture plants having medicinal or environmental benefits. The institution has undertaken many green initiatives which have helped in maintaining the sustainability of green and eco-friendly practices.

These practices and initiatives are listed below:

1. The institution has discouraged the use of non-reusable plastics. The institution uses reusable steel cups, glass, and steel tumblers for staff.
2. Gobble bins turn wet garbage into compost, which is then used for the campus's vegetation.
3. With the assistance of the gardening and cleaning staff, the institution maintains a variety of plants on campus.
4. To ensure a pollution-free environment, there are restrictions on the use of vehicles on campus.

5. The institution has a tradition of gifting saplings to the guests and invitees instead of bouquets.
6. The institution often makes students environmentally conscious during class assembly.

#### CLEAN CAMPUS POLICY

##### **PREAMBLE**

The Institute promotes a Clean and Green campus through adopting, practicing, and promoting environmentally friendly practices among students and staff to generate Eco-consciousness among them and in the world around them. The increasing human footprint on earth poses great environmental challenges that continue to grow over time. An unprecedented effort is required to alleviate the adverse effects that human activities have on the ecosystem, effects that in turn alter how we interact with the earth and with each other. The inclusion of all approaches to problem-solving will be necessary to effect a meaningful change.

##### **OBJECTIVE**

The institution has structured a clean campus policy to achieve the following objectives:

- To maintain a clean and hygienic learning environment in the classrooms, library staff rooms, and office.
- To have safe and hygienic washroom facilities in the campus premises.
- To maintain a clean corridor, lifts, and open spaces.
- To educate students and staff on maintaining cleanliness across the campus.
