## **REPORT ON VENTEL ACTION PLAN**

### **VENTEL (VOCATIONAL EDUCATION – NAI TALIM EXPERIENTIAL LEARNING)**

VENTEL stands for “Vocational Education-Nai Talim-Experiential Learning”.

Vocational Education - Nai Talim - Experiential Learning (VENTEL) discusses MGNCRE’s interventions in HEIs and making Vocational Education a Teaching Methodology. Various workshops on Social Entrepreneurship, Swachhta, and Rural Engagement related activities in Higher Education Institutions have been conducted over the last few years.

Nai Talim is the ultimate way of learning with skill acquisition, gaining knowledge, and learning with practical application. Nai Talim-based activity is used to improve the attitude of students towards science.

### **PURPOSE OF CONDUCTING VENTEL ACTION PLAN IN COLLEGE**

Education needs to focus on all-round development and it is best obtained through experience. Education is effective when it is transacted through work and craft and not only through books and abstraction. Focus is needed on culture, arts, music, dance sports, and games which are the basis for the development of creativity, imagination, and peaceful living with harmony. Gandhiji’s Nai Talim promotes the dignity of labor and social equality and practices the harmonious combination of the body, mind, and soul.

There are many activities that fall under VENTEL action plan, like Mask Making, Sanitizer Making, Horticulture, Weaving, embroidery, DIY decorations, etc. Here, the student-teacher got a chance to learn how to make Masks, Sanitizers, decorative items, etc. Also, the student-teachers got hands-on experience with different methods and ways to plant a medicinal plant.

The purpose of this activity is to train the new age teachers to involve in different and innovative ways of interacting with the students and creating an environment where they enjoy learning and achieve holistic development.

It also helps the student-teacher to inculcate new and improved hobbies that help them achieve success in the field that they wish to or try anything new to grow and learn.

VENTAL activities help to focus and increase the creativity of the students as well as teachers, they learn new techniques and how to teach them in a safe and insured manner to have positive outcomes.

To train them in improving their communication skills by providing them with vocational training and teaching them a practical approach to achieving their goals in life.

Thus we conclude that Gandhiji's Nai Talim promotes the dignity of labour and social equality and practices the harmonious combination of the body, mind, and soul. All the activities planned under VENTEL action plan have helped the student-learners in the all-round development of their personality that is gained through their involvement and experiences in the activities.
